

HOW TO USE THE PULPIT

1. Follow the "**Turning on the audio system**" guide.
 - Skip the "stage" step.
 - You may skip the "coffee shop" step too, if you don't have people there.
2. Find the "ASSIGN" section on the mixer, on the right side.
 1. Press "**PULPIT MUTE**" if needed, to make it gray/unlit.
 2. Press "**STAGE OFF**" it will not light up, just press it once.

3. Make sure **MAIN** is not muted. (Mute button should not be red, see image below.)
4. Set Main fader to 0.

5. Press "**GROUP DCA 1-8**" (at the middle of the console)
6. Bring the "**SPEAKER**" group to 0. (right next to the previous step's button)
7. Press **CH 1-8**.
8. Ask someone to set the volume to something reasonable while you speak.

9. When finished, follow the "**Turning off the audio system**" guide.
