

# STREAM lifecycle on Sundays

**10:01**

It will automatically start to stream with the “SERVICE PRE-STREAM” scene. This helps people to tune in, check audio and video settings, etc.

The “TOGGLE” button does not work during this.

**10:30**

It will automatically switch to the “PULPIT” scene, and starts the recording.

## DURING the service

Use the  button to toggle between the camera and the presentation.

### Changing camera angles

- Press any of these once:  
   
- Press  together with  to transition to live.

### Manual camera adjustment

To manually move or zoom the camera:

- Press & hold 
- Press any of these to move:  $\leftarrow$ ,  $\uparrow$ ,  $\rightarrow$ ,  $\downarrow$
- Press any of these to zoom: +, -

## AFTER the end, after the blessing, on “AMEN”

- Press .
- Press  together with  to transition to live.
- This will stop the recording and the live stream also.
